📍 Munich, Germany | EU Citizen

About Me

I'm a Developer driven by curiosity, creativity, and a passion for solving real-world problems through code. My professional journey has been diverse, and over time I discovered that technology is where I thrive. Since then, I've focused on building practical solutions using modern technologies like Go, TypeScript, and Swift.

I thrive in environments that value authenticity, learning, and purpose. Outside of work, I'm dedicated to mindfulness, movement, and living intentionally—practices that help me grow as a developer and as a human being. My goal is to keep evolving, build meaningful products, and contribute to teams that care about impact as much as innovation.

Professional Experience

Database & Administration Specialist

On Running | 2024 – Present · Munich
